Experience

UX Designer | Cotiviti, Inc. (previously Edifecs)

Remote / Bellevue, Washington | Apr 2022 — present

- Led and contributed to UX initiatives across the Population Payment Management (PPM) and Edifecs Value Insights (EVI) platforms within the value-based care (VBC) domain.
- Designed and streamlined complex enterprise workflows supporting healthcare contract management and analytics transparency, reducing configuration and validation time for a key PPM workflow by 95%.
- Served as a primary designer across interconnected operational and analytical VBC platforms, building deep domain expertise and supporting product continuity across initiatives.
- Collaborated with product managers, engineers, designers, and business stakeholders to translate complex requirements into scalable, user-centered solutions.
- Established reusable Figma components and interaction patterns to improve design consistency, scalability, and collaboration with engineering teams.

UX Designer | Sustain 6, Inc.

Remote / Del Mar, California | Feb 2021 — Apr 2022

- Designed client-facing and administrative workflows for enterprise software products, improving usability and supporting new feature development.
- Evaluated legacy system experiences and collaborated with cross-functional teams to translate business requirements and technical constraints into scalable UX solutions.
- Partnered closely with engineers to implement UIs using **ReactJS** and **TypeScript**.

Co-founder | Taiwan Intelligent Home Corp.

Remote / Taipei, Taiwan | Apr 2015 — present

- Designed and developed responsive web experiences (RWD).
- Wrote educational articles introducing smart home and IoT concepts to general audiences.

UX Designer Intern | Adventrip

Tainan / Taipei, Taiwan | Jun 2019 — Jul2019

- Redesigned workflows and conducted usability testing for travel-related mobile experiences.

Software Engineer Intern | Titansoft Pte Ltd.

Taipei, Taiwan | Jul 2016 — Aug2016

- Designed and developed the overall **UI / UX** in agile Scrum environment.
